Well Done!

Your TOTAL carbon footprint is 75% of comparable households, and 380% of the global average.

These emissions are the equivalent of burning 80 barrels of oil,

or planting & managing 7 acres of forest.

Your Total Carbon Footprint

Cheat to make eco footprint green.

This workbook covers the Grade 8 Water Systems unit in the Ontario Science curriculum (Understanding Earth and Space Systems). This resource contains information sheets, activity sheets, lessons, vocabulary, a quiz and an experiment. Topics covered include water usage, groundwater, factors affecting water tables, climate, watersheds, water treatment, water technology, and access to safe drinking water. This workbook includes: 3-page Lesson Plan for teacher (With expectations, learning goal/succesPage 2Use this resource for reviewing or assessing your students' understanding of the various levels of ecological organization. Use it as a part of a station activity, classwork, homework, a race to complete activity, or even a quiz. Choose which version works best for you and your students. Check out the preview for a complete view of the resource. Keywords: science, ecology, environment, habitat, ecosystem, organization, biome, community, population, species, organism, Page 3Use this double puzzle for quickly reviewing or assessing your students' understanding of ecological succession. More engaging than a traditional worksheet. It will work well as an in-class or homework assignment. You can even use it as a quiz. Simply print and go! Keywords: science, biology, life science, environmental science, succession, primary, secondary, volcano, plow, forest fire, pioneer species, intermediate species, community, lichens, plants, animals, printPage 4Use this resource for supplementing your lesson on ecological levels of organization. Use it as a part of a station activity, as interactive notes, or as traditional notes. The hands on activity will engage your students and increase their understanding. Choose which version works best for you and your students. Check out the preview for a complete view of the resource. Keywords: science, biology, life science, biology, footprints while studying the following essential question, "How sustainable is your current lifestyle?" Students are introduced to the following resources are included in this unit:- Ecological Footprint Lesson Plans- Ecological Footprint PowerPoint Presentation & Guided Notes- "The Story oPage 6Digital Version of this product here: Ecological Succession: primary and secondary succession, pioneer species, climax community, point-source pollution, and nonpoint-source pollution. This product contains: - Reading Comprehension Tips- A reading passage supported by graphics (half page to fit in notebooks)- Magnified reading passage option to use on a doc cam, to accommodate stPage 7Vocabulary cards include: Biosphere, Biome, Ecosystem, Community, Population, Species, Individual, Ecology, Biotic factors, Habitat, Niche This product is also available as part of the ECOSYSTEM Organization - Levels of the Environment, Biotic vs. Abiotic, Ecology Follow me for more great products, discountsPage 8Levels of Organization, Ecological Organization, Biology End of Course Review, Summer School, Biology End of School organization and biomes? Looking to provide additional support in understanding basic information associated with ecosystems, populations and communities? Looking for modified/accommodated work to hPage 9You will receive a PPT and PDF copy of this slide show.
